

# What our customers say about Timefold

“Timefold worked in partnership with NEC to provide the optimisation required and extended their platform to accommodate specific requirements for the Social Housing sector. The time to market was shortened through agile partnerships working.”

**Trevor Hampton**  
Product Director at NEC

# What our customers say about Timefold

“The Timefold platform is better than anything we have ever seen or used before. By optimizing the planning, we reduce the workload for our people and make our transports more environmentally friendly. In this way, the circle is complete.”

Managing Director, Ecoprogram Flotte

# What our customers say about Timefold

Tasked with a complex scheduling problem, we didn't just propose a solution; we built one — operational in real-time, with real data in 4 days. Thanks in large part to the solid foundation of the Timefold product, the client selected us on the strength of our demonstration.

**Michael Galkovsky**  
NATO, Intelligence, and Defense Chief Architect, IBM services
